Time	Difficulty	Steps	You will need
30 min + shopping	Moderate	11 items	This sheet · A budget for the kit

Gather everything on this list before the first boot, so nothing has to be ordered in the middle of the build.

On the tableThe dice table

- **Five casino dice** with readable faces
- **Pencil** and the recording grid
- A **private room**, no camera

The computerOne machine, two boots

- **Boot 1:** stays online, watch-only, never holds a seed
- **Boot 2:** Tails USB, networking off
- **Data USB:** carries only checked files

FilesChecked before anything goes offline

- **Tails 7.16 or later 7.x** (verified) · **Sparrow 2.5.5** (exact) · **Electrum 4.8.3**
- **Ian Coleman** page (offline only) · **dice converter** (in this kit)

MetalThree plates, three places

- **Three titanium plates**, one seed on each
- **StampSeed** kit holds 1 (buy 2 more) · **Cryptotag** holds 2 (buy 1 more). Don’t mix methods
- Three places, **far enough apart** that one disaster can’t take all three

Nothing is bought mid-build. If a plate or USB is missing when its sheet arrives, stop and get it first.
